THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. **PROSECUTION ON THE MERITS IS CLOSED.** THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN **THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE** OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. **THIS STATUTORY PERIOD CANNOT BE EXTENDED.** SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER:** Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

# **PART B - FEE(S) TRANSMITTAL**

**Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450**

**or Fax (571)-273-2885**

**INSTRUCTIONS:** This form should be used for transmitting the ISSUE FEE and PUBLICATION FEE (if required). Blocks 1 through 5 should be completed where appropriate. All further correspondence including the Patent, advance orders and notification of maintenance fees will be mailed to the current correspondence address as indicated unless corrected below or directed otherwise in Block 1, by (a) specifying a new correspondence address; and/or (b) indicating a separate "FEE ADDRESS" for maintenance fee notifications.

CURRENT CORRESPONDENCE ADDRESS (Note: Use Block 1 for any change of address)

Note: A certificate of mailing can only be used for domestic mailings of the Fee(s) Transmittal. This certificate cannot be used for any other accompanying papers. Each additional paper, such as an assignment or formal drawing, must have its own certificate of mailing or transmission.

## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 583 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 583 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

## Privacy Act Statement

**The Privacy Act of 1974 (P.L. 93-579)** requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Kozuch on April 8, 2011.

The application has been amended as follows:

Claim 32, lines 4-5, will have the following recitations removed: "a first group of operationally interconnected components in fluid flow communication with"

Claim 32 lines 8-9, will have the following recitations removed: "a second group of operationally interconnected components in fluid flow communication with"

Claim 35, lines 4-5, will have the following recitations removed: "a first group of operationally interconnected components in fluid flow communication with"

Claim 35, lines 9-10, will have the following recitations removed: "a second group of operationally interconnected components in fluid flow communication with".

And in addition, Claims 30 and 31 are cancelled.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or make obvious the claimed invention as a whole, which includes the limitation that each of the low pressure column, high pressure column, heat exchanger, and at least one further processing unit are provided in self-

contained modules which are fully assembled and adapted to be transported as a single pre-assembled fully assembled unit from one location to another and in which the low pressure column module is mounted on top of the high pressure column module and in which the heat exchange module is immediately adjacent and attached directly to at least one of the high or low column modules, and the at least one further processing unit module being immediately adjacent and attached directly to at least one of the heat exchange module, high pressure column module, and the low pressure column module.

As seen in the prosecution history, Guillard (US 6148637 also see FR 2780147) teaches the use of providing each of the distillation columns, heat exchanger, and processing unit in modules and connecting them operationally and providing them immediately adjacent to one another. However, Guillard explicitly teaches away from providing the low pressure column module on top of the high pressure column module as a single unit for transport and instead teaches that the modules are employed for the express purpose of making shipping and erection less costly by providing the modules separately (column 2, lines 1-20; column 5, line 59).

Brigham (US 2004/0050095) teaches providing a distillation system in an ISO container and providing other containers for pre-distillation components and attaching the containers together (Fig. 4-7) however, such is an explicit teaching of providing the distillation system as a whole in one container rather than in separate modules which are attached directly together.

The following teaches that providing an air distillation system that produces 2000 tons/day of product is well known: Olszewski (US 4224045) - column 10, line 64;

Olszewski (US 4254629) - column 4, line 56; Agrawal (US 5165245) - table 1.

However, none of these references mention or suggest modular housing of components.

Providing the low pressure column on top of the high pressure column is a well known means arranging double column air distillation systems as taught by: Cheung (US 4560397), McNeil (US 4529425), and Wagner (US 2001/0018829). However, none of these references teaches that the high and low pressure columns should be within modules of their own.

Guillard (US 6167723) teaches that a low pressure column 3 mounted on top of a high pressure column 5 and teaches that the double column should be pre-fabricated and transported in a cold box (column 1, lines 26-32). However, Guillard doesn't suggest any reason to provide the high pressure column and the low pressure column in separate boxes. Similar teachings are found in Guillard (US 6182470); further Guillard teaches that cold box heights of 40 meters are transportable conventionally (column 3, lines 50-55).

Likewise, Denzau (US 6134915) teaches distillation columns mounted in a single cold box (54) but doesn't teach that the low pressure column 12 is on top of the high pressure column but rather expressly teaches that it is undesirable to provide the columns in a package that is extremely tall (column 2, lines 1-5) and that staggering provides a more compact package.

Moeller (US 20040000166) teaches that the distillation columns may be provided in separate modules but for the express purpose of transporting the modules separately

and thus more easily (parag. 11) and therefore teaches away from uniting the modules as a fully assembled unit for transport.

Guillard (US 6128921) teaches double columns (44, 48) (43, 47) are within a cold box 14 and further teaches that large systems can not be transported reasonably (column 1, line 20). Guillard does teach that the columns are provided in diameters of 6-7 meters (column 5, lines 40-45) and reservoirs for product (column 5, lines 20-25).

Therefore, in consideration of all of the evidence, it is seen that the those of ordinary skill in the art would not be motivated to provide the high and low pressure columns in their own modules with the low pressure module on top of the high pressure module as a fully assembled unit to be transported to a second location as the prior art teaches that providing modularity to the air distillation systems provides the primary benefit of shipping each of the modules separately or in a disassembled state to reduce the cost of shipping. Therefore, it is considered that if one were to ship a system as a single fully assembled unit that one would not provide the system in several modules but would provide the columns in a single larger module and therefore the claimed invention is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
